WhatsApp is one of the best and the widely used texting service at a global level. However, the installation of WhatsApp++ for iOS needs a jailbreak in common parlance. So this guide would let you know how to install the application without jailbreaking your iPhone. WhatsApp++ for iOS The latest version of WhatsApp++ has more features such as stealth mode, and Limited media messaging, passcode support and custom themes. You can even lock the WhatsApp without touch ID. Hence, it's more enjoyable to have WhatsApp++ rather than the normal turn off WhatsApp. To download it, you need to follow any of the given methods below. Also, check out - 2 Ways to Install SnapChat SCOTman for iOS - FREE. Features of WhatsApp++ for iOS Hide status: The stealth mode of WhatsApp PLUS PLUS can let you hide your online status according to your personal will. Hence, people who often stalk you online will not remain successful anymore. They will not be able to know whether you are online or not. Also, you can hide your Blue ticks so that the sender doesn't come to know whether you have read their message or not. With WhatsApp++, you can choose your favorite contacts as you read recipients. Besides everything, you can't disable the delivered receipt in which the sender would just get a single tick mark on sending a message to you. Unlimited files: Choosing more than 10 images from a gallery is not possible in case of normal WhatsApp. However, with WhatsApp++ for iOS, you can send any number of files in a single go. Sending 100 or 1000 files at once is not a problem at all. Name WhatsApp++ Category Tweaked Apps Developer WA Price Free Last Updated June 2022 Downloads 50,00,000+ Size ~ 50 MB Single tap audio clip: You had to keep holding the microphone button for recording the audio message till now. However, with WhatsApp Plus plus at your disposal, you can just press the audio button once and record your voice text in a hassle-free way. Touch ID protection: Almost everyone has some private conversation that needs complete protection. With WhatsApp Plus plus, you can use touch id passcode to encrypt such discussions. WhatsApp++ on iOS: Best Enhanced Features Customisable: You can customize everything you feel like and the new version of WhatsApp. Right from choosing the background color in the font size and color is not a problem in the hacked version. No Need to Resize your Picture: With WhatsApp++, you can set up the entire picture as your profile picture. You don't have to resize or crop it any more. Automatic Contacts Synchronisation: After the installation, all your contacts will get synced automatically with the modded WhatsApp. WhatsApp list will get automatically updated, the moment you add a new contact.
